

The subject of inflatable Christmas decorations used in front yards has been discussed by the TG Board. At an Executive session on November 30, 2024 via telecommunication a motion was made to allow only Christmas inflatable decorations in the front yards of residences with specific limitations to include:

Placement: front yards only; no common areas

Size: not to exceed 8' in height

Quantity: limit of one per yard

Timing: duration not to exceed 30 days following Thanksgiving, with removal by January 2.

Additionally, inflatables must be securely anchored to prevent movement due to wind or weather conditions. Any inflatable causing damage to property or creating a safety hazard must be promptly removed.

The motion passed four in favor; two opposed.

Loud noise producing motors and sound effects are strongly discouraged; please be considerate of your neighbors.

We appreciate your cooperation with this recent TG Board motion which will be added to our Rules and Regulations handbook.
